

## CALIFORNIANS GET TOGETHER.

State's Congressmen Agree to Act in Unison.

Hayes Is "All Cut Up" Over Tariff Schedules.

"Lemon" Handed Citrus Men in His Opinion.

(BY FEDERAL WIRELESS LINE TO THE TIMES.)

WASHINGTON BUREAU OF THE TIMES, April 10.—(Special Dispatch.) California Representatives in Congress have decided to act in unison on all matters affecting their State. On invitation of James R. Knowland of Alameda, no senior member of the delegation, the members met at luncheon in a private dining-room of the House restaurant and discussed matters that are now uppermost in their minds.

"Pull together" was the motto adopted. After luncheon had been dispatched, the meeting practically resolved itself into a caucus on legislation for California. The exposition was discussed and the opinion reached that the delegation should favor the sundry civil bill which comes up. This applies especially to the appropriation of \$100,000. This does not mean that an appropriation for the San Diego exposition will be frowned on, but if any money is asked for San Diego, it will not be in the sundry civil bill, but in a separate measure. The government, through various bureaus, will make exhibits at San Diego. The question is, whether Congress should not take cognizance of this and assume general direction of the work.

**GRAZING ON PUBLIC DOMAIN.** There was also general discussion of the granting of permission for California stock men to graze their stock on the public lands. Assistant Forester Foster is going West and he will look into the matter.

**RIVERS AND HARBORS.** Rivers and harbor works proposed in California, will be taken up by the delegation and if worthy, will get the united support of all eleven members. This rule will be adopted with respect to everything affecting State interests. It is intended to hold these meetings hereafter every Wednesday.

**HANDLED A LEMON.** Congressman Hayes announced today that he intended to make a speech when the tariff bill comes up for discussion. Being from a district that was hard hit by the tariff doctors, he said "all cut up" over it. "They hit us very hard on lemons," he said, "and also on dried fruits, except raisins and figs. The proposition to put sugar on the free list is also a serious matter for our people. On other things the bill is not so radical as I had feared, but I am apprehensive that the heavy reduction on citrus industries will reduce the purchasing power of people who are good customers for California products. Of course, our best market is here in the East."

**DRAFTS CURRENCY BILL.** Hayes, who is now ranking minority member on the Banking and Currency Committee, has been called into conference several times by Chairman Glass, who is preparing a bill to present in case the opportunity comes up. He has drafted a bill which he will present either at this session or next winter.

**Burdens Too Heavy.** **REJECTING ALL NOT NECESSARY.**

ASSOCIATION FAVORS BUT TWO BOND PROPOSITIONS.

Progressive North-East-West Boosters Favor Even Their Pet City Hall Plan and Call Upon Voters to Defeat Burdensome Power Proposition and High Line.

At the meeting of the N.E.W. Commercial and Improvement Association held yesterday in the Chamber of Commerce, a resolution was adopted opposing all the proposed bond issues except those for the Franklin Canyon line from the San Fernando reservoir, known as the Los Angeles city trunk line, and the proposed issue for harbor improvement.

The preamble calls attention to the difficulty that will be experienced in marketing bonds in this year of great catastrophes, and to the additional fact that the city will increase in population of the city will in the near future demand several millions more for additional schools. The association likewise declared in favor of leasing the distributing systems of the light and power corporations, instead of attempting the stupendous task of building an additional one. During the debate strong expression was made against the Graham high line scheme, and in favor of selling the city's electrical energy to the power corporations at a reasonable rate, insuring the lowest possible price to consumers, as the Board of Public Utilities fixes the price at which it may be sold. The resolutions adopted were as follows:

"Resolved, That we, the officers and members of the N.E.W. Commercial and Improvement Association, in meeting assembled believe it our duty to vote against all the proposed bonds except \$1,500,000 required to connect the San Fernando and Franklin Canyon reservoirs (to be known as the Los Angeles City Trunk Line) and the \$2,500,000 required for the immediate improvements at Los Angeles Harbor.

"Resolved, That we favor leasing the present light and power distributing systems of Los Angeles, coupled with a purchase agreement and exclusive right to make all future extensions.

"Resolved, That we reaffirm our former action in favor of limiting the supply of the Los Angeles Aqueduct water and electrical energy to the city of Los Angeles and contiguous territory that will become annexed thereto."

A resolution was also adopted memorializing the City Council for an appropriation in the coming budget of \$25,000 "for absolutely necessary improvements in Echo Park and approaches."

A letter was read from Charles Guilford Robinson, the landscape architect, approving of the plan to

## Wall Street in Mourning for Morgan.

His home a funeral mansion.

The body of the late financier which will arrive tonight, accompanied by his daughter, will lie in state in the library of his home and the flags on Wall street will remain at half-mast until the body is buried Monday. His son, J. P. Morgan Jr., it is generally conceded, will succeed to the control of the Morgan fortune.

Obsequies.

## MORGAN FUNERAL MONDAY, BODY ARRIVES TONIGHT.

(BY A. P. NIGHT WIRE TO THE TIMES.)

NEW YORK, April 10.—J. P. Morgan left written instructions as to how his funeral services should be conducted. In accordance with these instructions, simple ceremonies will be held over his body next Monday at St. George's Church, of which he was senior warden. They will consist of the Episcopal burial service without eulogistic address of any kind.

Mr. Morgan's body is expected to arrive here on the steamship Franco Friday night and will rest in the Morgan library adjoining his residence. Only immediate relatives and the most intimate friends will be allowed to view it.

Following requests in the memorandum written by Mr. Morgan and left with the Rev. Karl Relland, rector of St. George's, the three bishops of the diocese with which the financier was most closely associated in his religious activity, will conduct the funeral service, assisted by the rector. The bishops are the Right Reverends David H. Greer of New York; William Lawrence of Massachusetts and Chauncey B. Brewster of Connecticut.

straighten Spring street from First street to New High and Temple. He, however, does not approve of the plan submitted to him for a new city center, saying that a much better plan is possible.

**WANT TAMMANY SUBSIDIZED.**

President Wilson Requested to Ignore New York Organization in His Appointments.

WASHINGTON, April 10.—President Wilson was formally requested today by anti-Tammany leaders of the New York State Democracy not to recognize Tammany in Federal appointments. They explained that their organization needed the moral support of the administration in its fight for progressive principles.

They went away with the impression that the President would go slow in the matter of making out his appointment list and that it would be some time before there would be any indication of what the President's attitude might be.

In the party were Representative Leathrop Brown, Secretary Franklin D. Roosevelt of the Navy Department, Stephen Ryan, Charles E. Rattigan and Louis Antisdale, up-State leaders.

**California Oranges.**

ring the highest prices in the East. Why not buy an orange grove and share in these profits? An advertisement in the "For Sale Orange Groves" columns of The Times "Liner" section. Investigators and be convinced.

## MEXICANS WARNED AGAIN.

Gen. Bliss Tells Them He Does Not Want Any More of Their Bullets to Drop on Our Soil.

WASHINGTON, April 10.—(By A. P. Night Wire to the Times.) Gen. Bliss, in command of the American forces on the Mexican frontier, reported to the War Department today that in consequence of repeated falling of Mexican bullets into American territory, he again had warned the commanders of the Constitutionalist and the Federal forces now battling at Naco, Mex., that further firing across the border would not be tolerated.

Both of the commanders, he said, had promised to do their utmost to prevent cause for complaint in future. Gen. Bliss thinks his force of American soldiers is adequate to control the situation.

## REFUSED TO GIVE UP GOMES.

American Consul and Captain Decline to Surrender Mexican Leader to Military Authorities.

VERA CRUZ (Mex.) April 10.—(By A. P. Night Wire to the Times.) Francisco Vasquez Gomes, who has been making a campaign in behalf of his party here, went aboard the steamer Monterey today and shortly afterward the military authorities requested the American Consul, W. R. Canada, and the captain of the ship to deliver Vasquez Gomes over to them. The demand was refused on the ground that the country was not under martial law and that only a warrant issued by a competent judge could be recognized.

The Monterey has been delayed in port by a gale, but will proceed as soon as the weather improves. The military commander is making every effort to take Dr. Vasquez Gomes into custody.

## QUEJADA ATTACKS YAGUE.

Canonades Indians Before Naco for an Hour While Gen. Obregon Is Away.

NACO (Arl.) April 10.—Gen. Quejada made a sudden attack tonight upon the Yaqui Indian division of the State troops forces, cannonading their camp for a half-hour. The Indians responded feebly. A number of bullets struck the Hotel Naco, here. Gen. Obregon has gone to Nogales to consult with State authorities regarding the difficulties in the attack on Naco.

## NEVER GUARDS MORE HOPEFUL.

Two Gaps Believed Strands of Mississippi Flood South of Wilson, Ark. Emergency Bonds Authorized.

MEMPHIS (Tenn.) April 10.—Optimism marked expressions of those tonight in charge of the battle to hold the levee in the central section of the Mississippi Valley. The flood-swollen river, conditions, while grave, were more hopeful. Two gaps in the levee near Wilson, Ark., are serving as outlets for a great volume of water, relieving the strain on the embankments south of that point.

The Mississippi Levee Commission met at Greenville today and authorized the issuance of \$150,000 in bonds for emergency funds to be used during the high water stage.

## AID BY SCHOOL CHILDREN.

SWELL FLOOD RELIEF FUND. SAN FRANCISCO, April 10.—School children here contributed \$234.90 today to the Red Cross flood relief fund. School teachers raised a fund amounting to \$1181.76, and this was turned over to the superintendent of schools at Dayton, O., for teachers there.

## REHEARS SURRENDER.

EL PASO (Tex.) April 10.—Four hundred Constitutionalists insurgents under the command of General Rosario, Southern Chihuahua. They were given full amnesty. The Federal army and the clergy will accompany the body on a special train for Harlingen where it will be placed in the Morgan mausoleum. The services there will be private.

## ARKANSAS TOWN FLOODED.

Telegraph Operator Waist Deep in Water, Wires to Memphis for Relief Expedition.

MEMPHIS (Tenn.) April 10.—The telegraph operator at Wilson, who sent a dispatch tonight urging that a relief expedition be hurried to that town, reported that at the time the message was sent, he was standing waist deep in water and that Wilson and the surrounding country was flooded to a depth of from four to ten feet. Those who did not leave before the levee broke have assembled in the upper floors of the more substantial buildings, and while no loss of life is probable, the supply of provisions on hand is short.

## ACTING GOV. FULFILL OF ARKANSAS.

Appealed to the relief station at Helena to send aid.

## PUT GAG ON SEIDEL.

Ex-Socialist Mayor of Milwaukee Told by Auburn Sheriff to Avoid Strike Topic.

AUBURN (N. Y.) April 10.—Emil Seidel, former Mayor of Milwaukee, brought here by Socialists in the interests of the labor forward movement, was notified tonight by the Sheriff before he started to speak at a mass meeting that he would not be permitted to discuss the twins mill workers' strike. Mr. Seidel obeyed the order.

## CALL IN MURDER AND SUICIDE.

OAKLAND, April 10.—That George Uchida, Japanese musician, murdered Annie Pierce and then took his own life yesterday in the decision of the police today, setting at rest the theory that the couple were killed in a duel. A telegram was received today from M. Pierce of Baker, Or., a brother of the girl, stating he would have the body cared for.

## FREE SUGAR; SECESSION.

Hawaii Would Leave the Union Governed by Democrats.

(By Cable and A. P. to the Times.) HONOLULU, April 10.—The Star-Bulletin says today that a petition is being prepared, declaring that "whereas, Hawaii is commercially unable to exist under free sugar, it is allowed to withdraw from the Union and resume its status of independence as a free sugar provision be enacted by Congress." The Star-Bulletin says the petition is being drafted by an attorney engaged by leading business men, and that the latter are giving it earnest support. It will be put into circulation as soon as the draft is completed.

## Patronage His Club.

(Continued from First Page.)

President so boldly tried to use his power for an unjust end.

"It is not as though the party were placed in the tariff-revision bill which has been introduced by Mr. Underwood," said this Senator, "because, as a matter of fact, the party went before the people at the last election on the tariff bills which previously had been introduced and each contained a protective duty on sugar and a 15 per cent duty on raw wool."

"The Democratic party at Baltimore commended the Democratic Congress for its tariff bills at the last session, and President Wilson himself approved what we had done. Now, however, we are asked to reverse the record of the last Congress and put free trade in effect."

"There was not a single person in the United States who expected the Democratic party to go closer to free trade than at the last session. If the public gave us power it was on record at the last session when we kept a duty on both sugar and wool."

"There is no excuse for President Wilson's bulldozing of Congress. It is coercion and might be termed even more harsh when it is realized that he is using that power of denying patronage in order to influence legislation which he personally wants. If any other official of the government were to do such a thing it would be considered a violation of law."

## OREGON SENATORS IGNORED.

Wilson Appoints National Committeeman Will R. King to Life Job Without Consulting Them.

WASHINGTON BUREAU OF THE TIMES, April 10.—(Exclusive Dispatch.) Will R. King, National Committeeman of Oregon, today was named a member of the Board of Appraisers for New York, and will draw a salary of \$8000 a year. It is a life job. The appointment came from the Treasury Department, and was secured through the personal efforts of King and without the indorsement of the Oregon Senators who had indorsed King for the Court of Claims bench, but had not appeared particularly enthusiastic over the ambitions of the Oregon Committeeman. Satisfied, he could not lend this office place to which he aspired, it seems King went to work quietly on his own hook and succeeded in securing the New York appointment.

"This is like the young lady's first proposal," said King. "It is too sudden for me to make a statement. I believe I will accept and if so will return to Oregon to arrange to take up the work in New York as soon as possible."

## BANKER-PHYSICIAN INDICTED.

Dr. W. T. Kirby, Who Sought Refuge in Innane Asylums, Charged with Forgery and Concealment of Assets. (By A. P. Night Wire to the Times.) CHICAGO, April 10.—Dr. W. T. Kirby, former president of the Kirby Savings Bank, which failed last summer with virtually nothing to show for the \$10,000 depositors had placed in the bank, was indicted by the Federal grand jury today on two counts. The banker-physician is charged with forgery and concealment of assets. Kirby disappeared at the time his bank failure became public and later was found in a sanatorium, having been adjudged insane at a hearing that escaped attention.

## BRAND NEW BLUE SKY ACT.

Senator A. H. Reed Offers Comprehensive Measure That He Hopes Will Satisfy Investment Men.

SARASOTA (Cal.) April 10.—A brand-new "blue sky" bill, presented as a substitute for the half-dozen or more measures previously introduced relating to the same subject, was offered in the Senate today by Senator A. H. Reed of California, and is said to represent a sort of informal compromise between the proponents of the extreme measures and the investment company men who have been fighting hard against them. Without exception, the other bills gave to an investment commissioner power to prevent the flotation of any company where the commission was not "reasonably certain" that the concern would be a success. It has been argued by opponents of the bills that all kinds of speculative enterprises would be barred and that the development of the State would suffer in consequence.

The Reed bill, which is labeled as an "investment companies act," provides that every company entering the business field in search of investment funds must file with a corporation commission a full statement of the facts surrounding its chances for success. If these facts are found to be correct the commissioner will issue a certificate and the company will be allowed to go ahead and sell its stock to the public.

## FAIR WARNING TO CONGRESS.

Work on Sea Coast Defense Guns for Panama Must Be Suspended Unless Money Is Voted.

WASHINGTON, April 10.—Secretary Garrison warned Congress today that work on the battery of sea coast defense guns for the Panama Canal must be suspended unless the sundry civil appropriation bill vetoed by former President Taft was passed soon. If money for the work was not available by May 1, 300 skilled mechanics at Walatree and Water-viet must be discharged.

## FINANCIAL HELP NEEDED IN ANTI-SOCIALIST

TO THE Citizens of Los Angeles:

The municipal primary nominating election takes place May 4. Only a little more than three weeks remain in which to make a campaign. The Municipal Conference of 1913 has proposed a ticket headed by John W. Shook for Mayor. Other organizations representing all shades of political opinion, the Socialists only excepted, have confirmed and ratified the selection of Mr. Shook. The imperative necessity of his election at the primary is appreciated by the public. We are going forward together with united front to serve the best interests of Los Angeles by the election of sound, honest, competent officials who will efficiently and fairly administer the city's affairs. We hope to elect not only Mr. Shook but the entire Municipal Conference ticket at the primary election.

To accomplish this result and make certain the city's progress and future welfare we must have—without delay

## WILL PETITION CONGRESS FOR CALIFORNIA

(BY DIRECT WIRE TO THE TIMES.)

San Francisco, April 10.—(Exclusive Dispatch.) The California Anti-Socialist League, which has been organized in San Francisco, today announced that it will petition Congress for California.

The league, which was organized by the late Senator George W. Perkins, is a national organization of anti-socialists. It was organized in San Francisco, and its headquarters are in the city. It has a large number of members in California, and it is expected that it will have a large number of members in other States.

The league's first object is to secure the repeal of the National Prohibition Act. It also seeks to secure the repeal of the National Firearms Act, and the repeal of the National Gunpowder Act. It also seeks to secure the repeal of the National Explosive Act, and the repeal of the National Poison Act.

The league's second object is to secure the repeal of the National Liquor Act. It also seeks to secure the repeal of the National Beer Act, and the repeal of the National Wine Act. It also seeks to secure the repeal of the National Distillery Act, and the repeal of the National Vineyard Act.

The league's third object is to secure the repeal of the National Tobacco Act. It also seeks to secure the repeal of the National Cigarette Act, and the repeal of the National Pipe Act. It also seeks to secure the repeal of the National Snuff Act, and the repeal of the National Opium Act.

The league's fourth object is to secure the repeal of the National Gambling Act. It also seeks to secure the repeal of the National Lottery Act, and the repeal of the National Race Act. It also seeks to secure the repeal of the National Casino Act, and the repeal of the National Casino Act.

The league's fifth object is to secure the repeal of the National Prostitution Act. It also seeks to secure the repeal of the National Vice Act, and the repeal of the National Immorality Act. It also seeks to secure the repeal of the National Debauchery Act, and the repeal of the National Debauchery Act.

The league's sixth object is to secure the repeal of the National Crime Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's seventh object is to secure the repeal of the National Vice Act. It also seeks to secure the repeal of the National Immorality Act, and the repeal of the National Immorality Act. It also seeks to secure the repeal of the National Immorality Act, and the repeal of the National Immorality Act.

The league's eighth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's ninth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's tenth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's eleventh object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's twelfth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's thirteenth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's fourteenth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's fifteenth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's sixteenth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's seventeenth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's eighteenth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's nineteenth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's twentieth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's twenty-first object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's twenty-second object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's twenty-third object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's twenty-fourth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's twenty-fifth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's twenty-sixth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's twenty-seventh object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's twenty-eighth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's twenty-ninth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's thirtieth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's thirty-first object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's thirty-second object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's thirty-third object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's thirty-fourth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's thirty-fifth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's thirty-sixth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's thirty-seventh object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's thirty-eighth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's thirty-ninth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's fortieth object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's forty-first object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's forty-second object is to secure the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act. It also seeks to secure the repeal of the National Sin Act, and the repeal of the National Sin Act.

The league's forty-fourth object is to secure the

The Last Word In Piano Tone  
and Piano Beauty is the  
**GRAND PIANO**

There is absolutely no question regarding the desirability of having a piano in the home. If you can afford a modest upright, that is the instrument you should have. If you can pay no higher

than \$600 to \$700—then get an upright in one of the world's greatest makes. But if you can afford \$750 or over we advise you, and urge you, to buy a Grand—because your home would then have in it the very finest the piano world affords.

The Baby Grand we offer at \$750 is a remarkably beautiful instrument. While possessing the unequalled tone of the Grand, it is so compact that it can be accommodated in the average house.

We feel it is our duty in the interests of the musical art to ask all intending piano purchasers to inspect our present showing of Granda. And we want you to accept this as a personal invitation to come today and go on a tour of inspection through our Grand salon.

Our plan of easy payments extends to every Grand Piano in the house—enabling every purchaser to acquire one of these instruments conveniently.

The train, however, was moving rapidly, and the engineer, fearing to run into the wreck, was moving cautiously.

## SOCIETY AFFAIRS

Mrs. William Tremaine Wyatt.

And her three charming young children. Mrs. Wyatt has been in the city since Wednesday, when she will entertain with an elaborate party.

COVERS were laid for seventy guests at the fashionable bridge luncheon given by Mrs. William Kirkle Reese, Jr., of No. 823 Shatto place, yesterday afternoon, and the dainty name cards were adorned with the hostess's family crest. Mrs. William Kirkle Reese, Jr., who before her marriage was Miss Bird Chandler, was the inspiration for the radiant party and the afternoon was most enjoyable. Yellow acacia and jonquils predominated in a handsome decorative arrangement for the room, the same blossoms appearing to advantage on the tables. Assisting Mrs. Reese were Mrs. M. K. Sina, Mrs. A. H. Weber, Mr. T. L. Ely, Mrs. John K. Wilson, Mrs. Gilbert Snowden King and Mrs. David Pascoe.

Members of the The Chapter Alpha Psi Psi society, of the city, were in the city since Wednesday, when they will entertain with an elaborate party.

At Arrowhead. Mrs. and Mr. Victor Baldwin Stewart of No. 1382 Chestnut avenue, Long Beach, announce Wednesday, April 24, for the date of the wedding of their daughter, Miss Muriel Hamilton Stewart, to Elliot Gibbs of Pasadena. The ceremony will be held at 4 o'clock at St. John's Episcopal Church, this city. Rev. Dr. George Davidson presiding. Miss Stewart's only attendant will be Miss Julia Derby and Clyde Burr will be best man.

At Arrowhead. Mrs. and Mr. Victor Baldwin Stewart of No. 1382 Chestnut avenue, Long Beach, announce Wednesday, April 24, for the date of the wedding of their daughter, Miss Muriel Hamilton Stewart, to Elliot Gibbs of Pasadena. The ceremony will be held at 4 o'clock at St. John's Episcopal Church, this city. Rev. Dr. George Davidson presiding. Miss Stewart's only attendant will be Miss Julia Derby and Clyde Burr will be best man.

 HARRY E. ANDREWS, Managing Editor.  
 J. E. FRAYNE, Assistant Treasurer.  
 WARREN OTIS-CHANDLER, Vice-President, Secretary.

**Los Angeles Times**  
 EVERY MORNING IN THE YEAR.  
 Daily, Sunday and 24-Hour Illustrated Weekly.  
 Daily Founded Dec. 4, 1881—23rd Year.

**OFFICE:**  
 New Times Building, First and Broadway.  
**LOS ANGELES (Free Along-haul-als)**  
 Entered at the Postoffice as mail matter of Class II.

**ARRIVED.**  
 The last doubt about the arrival of spring was removed Thursday with the coming of a circus parade, elephant, steam gallopers, small boy and all.

**A WORLD OF BEAUTY.**  
 Pasadena is giving its eighth annual flower show. Any man who is not quite sure of heaven and would like to see something just as lovely should take advantage of this opportunity.

**CHOICE OF EVILS.**  
 Job Harriman and his associates are worrying over getting the Magnolia anarchists out of the Federal prison. Even that would be preferable to getting the Los Angeles anarchists elected.

**AN EASY CONDITION.**  
 The City Council threatens the adoption of an ordinance compelling caterers to designate whether they are serving fresh or storage fish. Los Angeles is close enough to the Pacific to guarantee its sea food.

**THEIR OWN MEDICINE.**  
 A pistol has been found on the person of one of the suffragettes at London. Perhaps all English suffragettes should be supplied with pistols and when they had all killed themselves by accident that proud old country would be at peace.

**PHILIP BUSINESS.**  
 The Sierra Club is trying to build for itself a lodge on the new Santa Anita trail at the falls below the cascades near Sturtevant's camp. The members are cordially invited to walk five miles before breakfast from Sierra Madre up the trail Sunday morning and to carry stones the rest of the way to help build the club's aerio in the hills. We can imagine that this lodge will be much more popular after its completion than it will be during its building.

**HEALTH INSURANCE.**  
 A big firm in Philadelphia offers its men 15 cents bonus for every bath they will take. They furnish the bath free, including soap and towels, but each man is limited to one daily plunge. They figure that if every employee takes advantage of their offer they will pay a bonus of \$25,000 a year, but believe that this is cheap insurance against sickness. The chances are that it will not be necessary to sustain the bonus system very long. After a few months each man would pay something rather than miss the delight of his cold plunge. It certainly is some favor to his wife to send the workman home clean and in a fresh and cheerful frame of mind.

**NO LIMITS.**  
 This being the reason of trout fishing we had served ourselves to the worst. Experience had taught us that a man who will go fishing for trout is one who is possessed of a vivid imagination and who must express himself, even if the truth suffers for it. The first bad outbreak of trout story comes from Connecticut, where a man claims to have caught trout a foot long and weighing a pound. He might have stopped there and still have retained his church membership, but when he claims that this trout has been trained to eat from a plate he is going too far. Everybody knows that it is the business of a trout to get himself drowned and to then be eaten from a plate.

**OTION AND REACTION.**  
 Do we always recognize our best friends? Burglars have no natural love for the police, yet if there were no policemen there could be no burglars. Those who go into the robbery business should remember the activity of peace officers prevents their banks from becoming overcrowded. As soon as the burglars outnumber the honest men, their occupation is gone. Being consumers and not producers, unless their activities were limited, burglars and bandits and hold-up men would soon have no field to be active in.

**WOMEN FOR SOLDIERS.**  
 The European cause for excessive armament has resulted in Austria-Hungary in a call on women for army service. With a population of 50,000,000 Austria-Hungary proposes to bring her army strength up to 2,000,000 available men, counting raw recruits and reserves. This would make soldiers of nearly one-third of the adult males in the nation.

**THE WAR OFFICE AT VIENNA.**  
 The War Office at Vienna has decided to add women to the army. A special to a Boston journal states that some are to be trained as clerks in the war ministry, others are to be placed in the ambulance service as "housekeepers," that is, to take the place of non-commissioned officers to attend to supplies.

**IT IS FURTHER INTENDED.**  
 It is further intended to commence training women, who will act in squads in the commissariat department in the case of mobilization, establishing victualling stations along the line of route of the railways. The entire station and its administration will be in the hands of women. The number of "nursing sisters" is also to be increased. "Nursing sisters" consist largely of artillery and long-range rifle shooting and bayonet charges and it will not be impossible to use women for field service. Several British regiments might be recruited from the militant suffragettes.

**JOB HARRIMAN'S CAMPAIGN.**  
 Job Harriman had a big audience at the Auditorium on Wednesday night. The floor and the lower gallery were filled with men and women. They received him enthusiastically and applauded him tumultuously, but those who attended in order to hear an exposition and defense of the doctrines of Socialism went away disappointed, for, except to repeatedly assert that at the coming election the Socialists would "carry the whole shooting match," and a few other Rooseveltian phrases of like import, Harriman scarcely mentioned the purposes of the organization whose candidate he is.

After a tender-voiced tribute to mothers who loved their children, while fathers he claimed did not; and after saying with bitterness that the millionaires who rode in automobiles could not make automobiles, and the owners of skyscrapers could not make the cement that was spread upon their walls; and after telling how a man who swore before the assessor that he owned only three hundred dollars' worth of personal property was robbed by a burglar that night of \$5000 worth of diamonds, Mr. Harriman began a diatribe against Mr. Shenk and those whom he called Shenk's "backers." This formed the staple of his harangue for half an hour. He denounced Earl and the Examiner, although on the whole he favored the bond issues which they advocated, because the Socialists, he said, would carry the city and have the spending of the money.

Mr. Harriman based his speech upon the proposition that he, and those on the ticket with him, would administer the government in the interests of the laboring classes, while Mr. Shenk, and those on the ticket with him, would, he asserted, administer it in the interest of that scare-head quartette of monsters, Big Business, Special Privilege, Predatory Wealth and Loathsome Capitalism.

When Harriman boasted of his free, uncompensated sympathy with the aspirations and hopes of the workers one could not help thinking of the \$15,000 he drew from the toll of the workers to aid in the defense of the McManis and then didn't aid. Harriman made no attempt to expound the principles and purposes of Socialism, but the chairman of the meeting informed the audience that they were all correctly stated in a pamphlet written by John Spargo, "The Socialists, Who They Are and What They Stand For," which pamphlets were circulated among the audience by ushers who sold them at 10 cents each.

The purpose of Socialism, as stated by Spargo, in this indorsed pamphlet, is "the end of the capitalist regime and the inauguration of Socialism. Capitalism," says Spargo, "is that industrial and social system in which the production of goods is carried on, not primarily for the use and enjoyment of the producers and their families, but by wage-paid laborers for the profit of a class of employers and traders. The essential features of capitalism are: (1) Production for sale and profit instead of for use. (2) The existence of a wage-paying class owning the tools and other means of production used by others, and a wage-receiving class using the tools owned by others in the interests of the tool-owners."

Socialism proposes, according to Spargo: (1) "To remove the system of private ownership in the means of production and exchange and their use for profit. (2) To destroy capitalist control of the industry and so safeguard their organization against injunctions, damage suits, and other insidious forms of capitalistic aggression. (3) To establish social ownership and control of the means of production, distribution and exchange; to put an end to private ownership of property, is to discourage thrift, industry and economy; it is to destroy individualism; it is to make of the worker an irresponsible atom instead of an ambitious unit in the body politic. Socialism discourages the effort of the worker to get on in life. It paralyzes ambition and transforms a man into a machine. It may continue to achieve temporary victories in localities, but so far as permanent success is concerned the American people will have none of it and the voters of Los Angeles will never place its yoke about their necks."

**THE PROTEST AGAINST NOISE.**  
 Probably a noiseless city is as hard to imagine as a pitcherless baseball game, a brook without a babble, a sentimental song minus dreams and roses or a political victory shorn of its pie counter. It may even be doubted whether an absolutely noiseless city would not be a terrifying prospect to the majority of modern man. There would be something uncanny and ghostly about it.

The weary prospector who has sunk to sleep under the big desert stars, in the vastness of nature's solitude, would be very much alarmed if he were to wake up in the mid-watch of the night to the sudden rumbling of wheels, blowing of whistles, clang of bells and throb of many motor cars; not more so, however, than would the man from Nevada, if he were to enter at mid-day the city of Los Angeles, full of automobiles and electric cars and crossing policemen and hurrying pedestrians, and find himself engulfed in a solemn and every silence. Noise comes and goes with civilization, is no use to it, and yet civilization can't get on without it.

Too much noise is as wearing on the nerves as too much silence. The problem is where to draw the line. That which would appear to be an excessive racket to the old lady with nerves is a suppressed form of excitement to the exuberant small boy. The "rah! rah! rah!" considered wholly inadequate to the yell leader of a band of college rosters, would drive a church choir director in sorrow to an early grave. The bang and clatter of street cars, sweet music to the shareholders in the car company, is a melancholy knell to the owner of superannuated mules. The unhappy concert of Europe is not gleefully inspired by the roaring of the cannon at Scarlati, but it is a triumphant Te Deum to the King of Montenegro.

Noise, like everything else in the world, has its proper place and its proper limitations. Our modern cities do, as a matter of fact, suffer from too much noise. Some of it is inevitable, some could be restrained or subdued. A good motor car runs through

the streets with the soft and not unpleasant purr of a contented pussy cat; the sharp and sudden bark of the motorcycle, getting up speed, can hardly be a source of comfort to the rider. Chief Sebastian is therefore right in demanding that engines on autos and motorcycles be muffled in city streets. Yet with all our noisy mechanical inventions the long, low roar of traffic, associated always with a busy city, comes from the thousands of pedestrians, though each footfall is almost inaudible. An army marching in unison across a bridge by striking the keynote of the structure can shatter it like a high explosive.

The right sort of noise is music, the wrong sort discord. Man must make himself heard as well as seen and felt. He knows he has only a few short years in which to be noisy; he doesn't know how extended a period is ahead of him in which to be silent. We cannot bring the desert into the city or take the city into the desert without violating the laws of acoustics.

**THE NEW LEMON TARIFF.**  
 California supplies the Atlantic Coast States with one-half the lemons consumed there; the other half is imported from Sicily. California has had in her favor the duty of 1 1/2 cents per pound levied on foreign lemons and she has been subject to the disadvantage of a freight rate of not less than 1 cent per pound, while the freight rate from Italy to New York was about one-quarter of 1 cent per pound. So that the protection enjoyed by California amounted really to only about three-quarters of 1 cent per pound, and California paid her laborers in the lemon orchards from three to five times as much wages as are paid in Sicily.

The Italian fruit importers in New York City entered into a black-hand conspiracy to drive California lemons out of the market and enjoy a monopoly of the lemon trade. Their representative, Burton Harrison, has succeeded in procuring from President Wilson and the Congressional Ways and Means Committee a lemon schedule of one-half cent per pound. If the bill passes then the cost of landing the Sicilian lemons in New York, duty and freight paid, will be three-quarters of 1 cent per pound, while it will cost not less than 1 cent per pound for freight on California lemons. The foreign importers will have the advantage of one-quarter of 1 cent per pound on Sicilian lemons raised where the workmen receive 60 cents per day as against \$3 per day paid to California laborers.

If the bill passes, the market for California lemons will be confined to the Pacific Coast States, the people of which do not now consume one-third of the lemons produced in this State.

The lemon orchardists in Southern California will be compelled to reduce the size of their groves or at least discontinue the planting of more trees and wait for the popular wave which two years or four years hence may sweep Democracy from power.

**THE WASTE OF CANNON-MONEY.**  
 A Berkeley gentleman who has a horror of war has mailed to The Times a copy of the fourth edition of a circular entitled "The Waste of War." He protests against any appropriations for the army and navy and encloses for signature a petition to Congress to oppose the passage of the proposed "Military Pay Bill."

He suggests other uses to which the money appropriated to maintain our army and navy might be applied. He says that it costs \$1050 to fire one shot from a thirteen-inch gun, while a high-school teacher can be hired for a year for \$1048.66. That seems like a high cost for a shot from a gun and an inadequate salary for a high-school teacher. Yet there are circumstances under which a shot from a thirteen-inch gun would be worth more to the nation than a dozen high-school teachers, and it does not appear that the gun-shot would lessen the number on deteriorate the quality of the educators.

A big battleship costs \$15,000,000 to build and equip. A sum, says the writer for peace, that would build and equip in Los Angeles twenty-seven polytechnic high schools, or four Universities of California at Berkeley. But at present we are not in need of twenty-seven polytechnic high schools in this city and doubts may be entertained as to the necessity of four more Universities of California at Berkeley.

The United States, says this writer, spent on preparation for war in 1911 the sum of \$253,086,000. This sum would give to every man, woman and child in the United States three years' subscription to a Berkeley hebdomad entitled the "Advocate of Peace." It may be doubted whether 90,000,000 of people would read that interesting journal even if it should be supplied to them free of cost.

The author of the pamphlet might have carried his interesting illustrations still farther. For instance, he might have called attention to the fact that the \$55,569 paid for a thirteen-inch cannon would buy 1,111,350 glasses of lager beer.

There might be a worse use of the people's money than to pay pensions to our wounded and aged heroes, or to pay the State militia—for instance, money used to compensate State legislators for drawing and introducing fresh bills to regulate and control everything in the heavens above or on the earth beneath or in the waters under the earth.

## UNCLE WALT.

The Poet Philosopher.

"This world is but a dismal place, a desert and a dreary." So Croaker says, with long drawn, face, and Croaker makes me shiver. I've hung around this good old sphere for two score years and twenty, and found that things are pleasant here, and there is joy a-plenty. Although Brer Croaker tears his robe and talks like some sored prophet, he will not leave this gay old globe until we push him off it. I've noticed that the chaps who roost this world wherein we're dwelling, and sigh to join the shining host where antenae are as swelling, when called away, put up a roar, and naught their grief can properly they hate to leave this punk old shore that they've abused so often. I like to think that when we die to Aiden we'll be wedding, and sing beneath a cloudless sky, in happiness unending. However glorious the land for which (I hope) we're headed, we shouldn't knock this mundane strand where we are now homesteaded. I hope to have a harp that's perched, and keep that harp a-humming, but while I loaf around this world I have no kick a-coming.

**WALT MASON.**  
 (Copyright, 1913, by George Matthew Adams.)

**The Isle of Man.**  
 (Indianaapolis News.) In some respects the Isle of Man, which has just defeated a workmen's compensation act, is one of the most backward portions of the British empire. All the revenue is raised by taxes on food and drink. There are no death duties, although usury is not taxed by law. The working classes are unprotected as well as overtaxed. No factory laws exist, and no attempt has ever been made to limit the hours of shop assistants, although Manxland is essentially a nation of shopkeepers. There is no property tax, no land tax. The working classes are unprotected as well as overtaxed. No factory laws exist, and no attempt has ever been made to limit the hours of shop assistants, although Manxland is essentially a nation of shopkeepers. There is no property tax, no land tax. # Real Whole Wheat Bread

The digestibility of ordinary whole wheat flour bread is a much debated question—but there is no question about the nutritive value or digestibility of

# TRISCUIT

the Shredded Wheat Wafer, a crisp, tasty toast containing all the body-building material in the whole wheat grain steam-cooked, shredded, compressed into a wafer and baked a crisp, golden brown. Delicious as a toast when eaten with butter, soft cheese, peanut butter or marmalades. It is snappy and full of "chews." Contains all the goodness of the wheat.

MADE ONLY BY

The Shredded Wheat Company

Niagara Falls, N. Y.

## The Gold Dust Twins' Philosophy

THE floors and doors appear to wait until the dust germs congregate; the housewife hails each dawning day with grim and harrowing dismay. Says she: "My work will NEVER end; o'er dusty stretches I must bend, until, with aching back and hands I finish what the day demands."

Then Mrs. Jones, one afternoon, dropped in, at time most opportune. An optimist, she knew the woes of housework—its sighs and smiles. She told of how she polished floors and woodwork and the endless doors, until when Hubby saw them, too, reflections said: "Why, howdy-do!"

"The Gold Dust Twins," said she, "I find, help leave the woes of dusty feet on floors, all fade before the slightest touch of Gold Dust, and the work is such that, when the woodwork has been done, I find said work was only fun." This line of reasoning must show that those who've tried it OUGHT to know. If you, in one day's duties, find that there's a Grouch in every Grind, invite the Gold Dust Twins to share such tasks as tire and fret and wear.

From kitchen floor to bedroom suite, these tireless little chaps make neat, and best of all, the sum expense is measured up in meager cents. They put both dust and dirt to rout and run the last old microbe out.

The Gold Dust Twins

EXTENSION OF DELIVERIES.  
"City Northwest," Route 13, from Hoover St. west to Wilton Place. From Council St. north to Santa Monica Blvd.

**Smith's**  
"Quality Grocery Service"

## LACKO

**On a Hot Day John Beard Showed the Youngsters Some Tricks They Could Not Do.**  
[Kansas City Journal:] John Beard, who has a vehicle and carpentering business at Paola, isn't so young as he used to be when he was a drummer, but you'd never know it to look at him.

One hot day and the Coates House was shimmering in the rays of an active afternoon sun. A stray newboy was pitching pennies at the crowd, but there was no sign of energy in the crowd that filled the outside chairs until Beard came along.

"I'll show you how to get the money, son," he said. He pitched a penny at the crack and hit it. "If you can't win anything that way, you might get a few shorthirts for a bluff and try this."

Beard drew up one leg until it appeared to be a post shorter than the other and convulsed the crowd by his imitation of a crippled beggar.

"Or try this," he said, drawing his fingers into a cluster of rheumatoid whacked talons. "Or maybe you'd like this better." He suggested, rolling his eyes until they appeared sightless. Everybody was watching the man from Paola now. He dislocated a shoulder, apparently, made himself humpbacked, threw a chest expansion for dishes, soup, fish, roasts, bent backward until his hands touched the sidewalk, and recovered a standing posture without apparent effort, then turned a few hand springs and cartwheels for good measure.

"Say, how old are you first?" gasped a young salesman on his first trip.

"Fifty-three, son," said Beard. "These hot day amusements stunt me, but I could not resist the temptation to show you fellows that there's still fun and elasticity in an old rooster who made up his mind to stay young."

**ALFALFA LAND**  
I have 140 acres of alfalfa land in the heart of the alfalfa belt. It is located in Tulare County, is absolutely level and has fine ditch water at all times, and is close to railroad, for 140 per acre. Small payment down, balance yearly.

The Magic Maple Flavor  
For making maple-flavored syrup, flavoring cakes, candies, frostings, ices and ice cream. Manufactured by **WESTERN MAPLE SYRUP CO.**, Los Angeles, Cal.

**Education and Workers.**  
[Washington Star:] "Woodrow Wilson naturally believes in a college education for boys and girls alike," said a banker at the Princeton Club in New York.

"When Gobes Gold's son, Scattergood," Wilson, lunching with me here, once said in his quaint way that the old idea about a college education unfitted a lad for work had quiet died out.

"We no longer hear," he declared, "stories like that of Gobes Gold's son. Scattergood," he explained, "desires to go to Princeton, he said to the old man: 'Father, is it true that boys who go to college are unfit for work after-ward?'"

"Of course it ain't true!" snorted the old man indignantly. "Why, I've got a Princeton graduate running my freight elevator, two of my best coal heavers are Harvard A.B.'s and a Yale B.S. is my star truck driver."

## For Age-Marred Skin and Dull, Streaky Hair.

(From American Press)  
Fine lines and that aged condition of the skin are caused by pore-clogging powders and creams. These should be discarded for a spumulation which seems a part of skin when on and is easily made at home at little cost by dissolving 4 ounces of pure lye in 1/2 pint of water (or hot water) then adding 2 teaspoonfuls of glycerine. This face-lotion protects the skin against the ravages of sun and wind, removes tan, freckles, oiliness and other upsets and leads an indestructible charm to the complexion.

An invigorating and pleasing shampoo can easily be made by dissolving a teaspoonful of caustic soda in a cup of water. This creates an abundance of rich, cleansing lather which is a positive benefit to your scalp and hair. After rinsing, your hair will dry quickly and evenly, with a brilliance and silky softness truly charming. Cantharsis, which costs little at the drug store, removes dandruff, makes the scalp healthy and promotes an abundant growth.—Advertisement.

## MEALS SERVED BY THE TUBE.

**PNEUMATIC CARRIERS WILL BRING FOOD.**  
Waldemar Kaempffert, Managing Editor of the Scientific American, Pictures the Time When Domestic Service Company Will Dominate the Housewives of Big Cities.

[New York Times:] If a letter can be shot through a pneumatic tube from New York to Brooklyn, why not a five-course dinner? If a corporation can make money out of cleaning office buildings and sucking dirt with vacuum cleaners, out of the antediluvian carpets of houses that are not wired for electricity, why should it not also dust, bric-a-brac, scrub floors, make beds and tune the piano? It is thus that Waldemar Kaempffert, managing editor of the Scientific American, would save the ship of the American home now foundering, according to him, on the rock of domestic service.

By the pneumatic tube, that ship will steer safely through the Scylla of the cheerless table d'hôte and the Charybdis of the domestic service company. The advent of the pneumatic tube and the domestic service corporation limited will make the preparation for good and all of incompetent cooks and housemaids and the dawn of domestic efficiency.

**CENTRAL KITCHENS IN CITIES.**  
Mr. Kaempffert has the daring proposal that each city shall have its central kitchen, with tubes radiating from it like the pipes from a water reservoir to the thousands of kitchens in its suburbs. That central kitchen will be comparable in size with the largest hotel in the city. Each department will be in charge of an expert. The ordinary household cook," says Mr. Kaempffert, "is like the ordinary amateur musician, who is expected to play every instrument, but not a single one with the technique of a virtuoso. For \$15 or \$20 a month she is supposed to prepare with equal perfection all the courses of a complicated dinner, from soup to pudding. It is too much to ask."

"If you can telephone for a taxi to take you to a theater, surely some day you ought to be able to telephone to a domestic service corporation—or rather to its nearest agent, a man or woman who will button up the back of your gown."

**QUEEN DIPLOMATIC MISSION.**  
Sultan of Turkey Asked to Aid the United States in the Government of the Moro Tribes.  
[Chicago Inter Ocean:] Maj. John P. Finley, U.S.A., for several years district Governor of the Zamboanga district, Mindanao, Philippine Islands, has been sent on one of the queerest missions in the history of our diplomacy. President Taft has sent him to Constantinople to induce the Sultan of Turkey, as head of the Mohammedan religion, to send letters to the Moro tribes, instructing them to accept the authority of the United States and assuring them that their religion will not be disturbed in any way thereby.

Maj. Finley has gone with the approval of President-elect Wilson and represents not only the United States but the Moro native chiefs, who have officially made him their savior in the matter.

Some revolutionists in the Philippines set about among the Moros to report that the taxes now levied upon the natives were to be used by the United States to put an end to Mohammedanism in the islands. Whereupon a great fear sprang up among the followers of Mohammed and there was danger of an uprising unless the Moros could be made to believe that their fear was groundless.

It seems probable that the Sultan will write such a letter. It is recalled that when Omar Strass was American Minister to Turkey, there was a controversy over barring the Bible from Turkey and the Sultan finally induced to admit the book as merchandise upon Mr. Strass's assurance that in the United States church and state had no connection and that Mohammedanism, Jew and Christian stood on exactly equal terms as far as their religions were concerned. In fact, in the last century a treaty was made with one of the Barbary States in which it was declared that the United States gave no official recognition whatever to Mohammedanism and in that sense was not a Christian nation.

If the Sultan sends the desired message to the Moros in the Philippines, it will be translated into a score of dialects and given wide circulation among the Mohammedans of the islands.

**Biblical Weights and Measures.**  
[Scientific American:] The discovery near the site of the house of Caliph Omar in Jerusalem of various ancient Hebrew weights and measures seems to end the uncertainty that has long existed regarding many of the weights and measures mentioned in the Bible. The vessels unearthed include a cub, a hin, a seah, a bath or ephah, a homer, as well as a complete set of the fractions and multiples of the homer. Most of the measures were found in a small chamber next to a mill, and a careful examination of them shows that the Jews had different sets of measures before and after the Captivity (B.C. 586). Biblical scholars will undoubtedly be able now to determine the equivalent, in modern weights and measures, of a talent of gold or silver, or of a homer or an ephah, or a bath.

ing every family will have its individual tube?"

Mr. Kaempffert answers that: "In the first place, dinner from your mind the idea that the scheme could ever be carried out in New York, a city that has grown up in a haphazard way, and is so huge cannot be tampered with. The experiment will first have to be made in a very small community—perhaps one that is not even in existence yet. It will have to be a community which will plan the distribution of its water, gas and food somewhat more intelligently than would now be possible in New York."

But for the necessity of individual tubes, it is not so serious as you may suppose. It is out of the question to supply each household with a direct connection with the central kitchen. Just as branch pipes lead from water and gas mains into your house, so branch tubes will convey your food."

"That is true," you admit. "But gas is gas and food is food. I do not see how the two can be mixed. I use in my house, but I certainly do not want to get the dinner that I ordered. How can I be sure that luncheon No. 2 and not luncheon No. 4 is delivered to me?"

"Look at a linotype machine and you will understand," he retorts. "The machine handles hundreds of little brass matrices from which lines of type are cast. After the casting operation has been performed the matrices are lifted to the top of the machine and distributed into a particular group of notches ready for use again, by a series of rails co-acting with notches on the matrices. A particular group of rails comes to an end and the matrices which it serves to transport must necessarily drop, and they drop, of course, into the places arranged for them."

"The problem of shooting a carrier through a main tube and switching it off at the proper point to a branch tube can be solved in an analogous way. That is all that I care to reveal at present. I have applied for patents on my particular method of distribution, and naturally I do not care to disclose the exact mechanism employed. I can only say that it is just as simple and just as sure as the distributing mechanism of a linotype machine."

**PRICES TO SUIT ALL PURSES.**  
If you object that all purses are not equally heavy and that the food delivered in the daily newspaper is much too expensive for a poor family, Mr. Kaempffert answers that the bills of fare can be so arranged as to meet all requirements.

If you can afford to spend only 10 cents a day, the corporation will give you as much as you now will obtain for 30 cents; it will not be raw material, but the realized dream of an artist. The reincarnation of the great artists of culinary history will be over the destinies of the main prepared for the man who has only 10 cents a day to spend, as for the man who can spend \$50 for a single bottle of rare vintage champagne.

The scheme, of course, would have to be started by some large real estate company, and would be an experiment similar to that that is being conducted by the Russell Sage Foundation at Forest Hills.

In Germany it might be still more easily accomplished, for there the centralization of domestic functions is rapidly progressing. All that I have told you is simply an extension of what we have now. If, for example, barbers are supplied by one company with clean towels and white coats, all sent clean by the company, surely it is not asking the impossible to supply households with clean bed linen every day.

"If you can telephone for a taxi to take you to a theater, surely some day you ought to be able to telephone to a domestic service corporation—or rather to its nearest agent, a man or woman who will button up the back of your gown."

**CONFERENCE ON THE MORO TRIBES.**

**WEBB'S HAIR TONIC**  
 Dandruff—stimulates growth of hair—prevents falling. The  
 hair tonic ever produced. For sale by **BOSWELL & NOYES,** 50c.  
 South Broadway, Corner Third.

## A black and white photograph of a large stadium, likely the Los Angeles Memorial Coliseum, with a city and mountains in the background. The image is framed by a decorative border.

The wash drawing shown above is an exact reproduction of a sketch made at Belle Mead on Friday, April 4th, by Artist Claude G. Putnam.

**THIS** drawing gives the accurate topography of the Belle Mead section. Note the wonderful view from Belle Mead, encompassing the entire city of Los Angeles.

—Note the altitude—on the highest rise of ground between Los Angeles and the sea—above the fog and dirt and damp of the mid-city levels.

High ground has been sought since time immemorial. The hairy, pre-historic man of the plain envied his brother of the cliff. The kings of the middle ages built their castles on the hills. The money barons of today rear their mansions on high ground.

Those who can, *buy high*.  
The air on high ground is *free* from depressing moisture, dust particles and disease germs that drag on the system and shorten life. It is absolutely fresh—taken at first hand—unused.

Air is the most essential factor of our existence. The air we breathe means years *added to* or *taken away* from our lives.

At Belle Mead, the Wilshire of the Southwest section, you have pure, fresh, life-giving air, an entrancing view and natural gravity drainage—combined with city conveniences and the most modern of city improvements.

Of the choice high ground residential sites in Southern California, Belle Mead is practically the *last one left*—and it will go as fast as the others.

Sales on certain high ground property near Belle Mead have run over \$1,500,000 in less than eighteen months—nearly \$100,000 a month.

Consider the almost prohibitive prices of other high ground sites in Southern California—then compare them with the extremely reasonable prices of Belle Mead.

**Your Belle Mead opportunity is NOW. It will not last long. The formal opening of Belle Mead will take place in a few weeks. To the man who "gets in" now, this opening will mean substantial profits.**

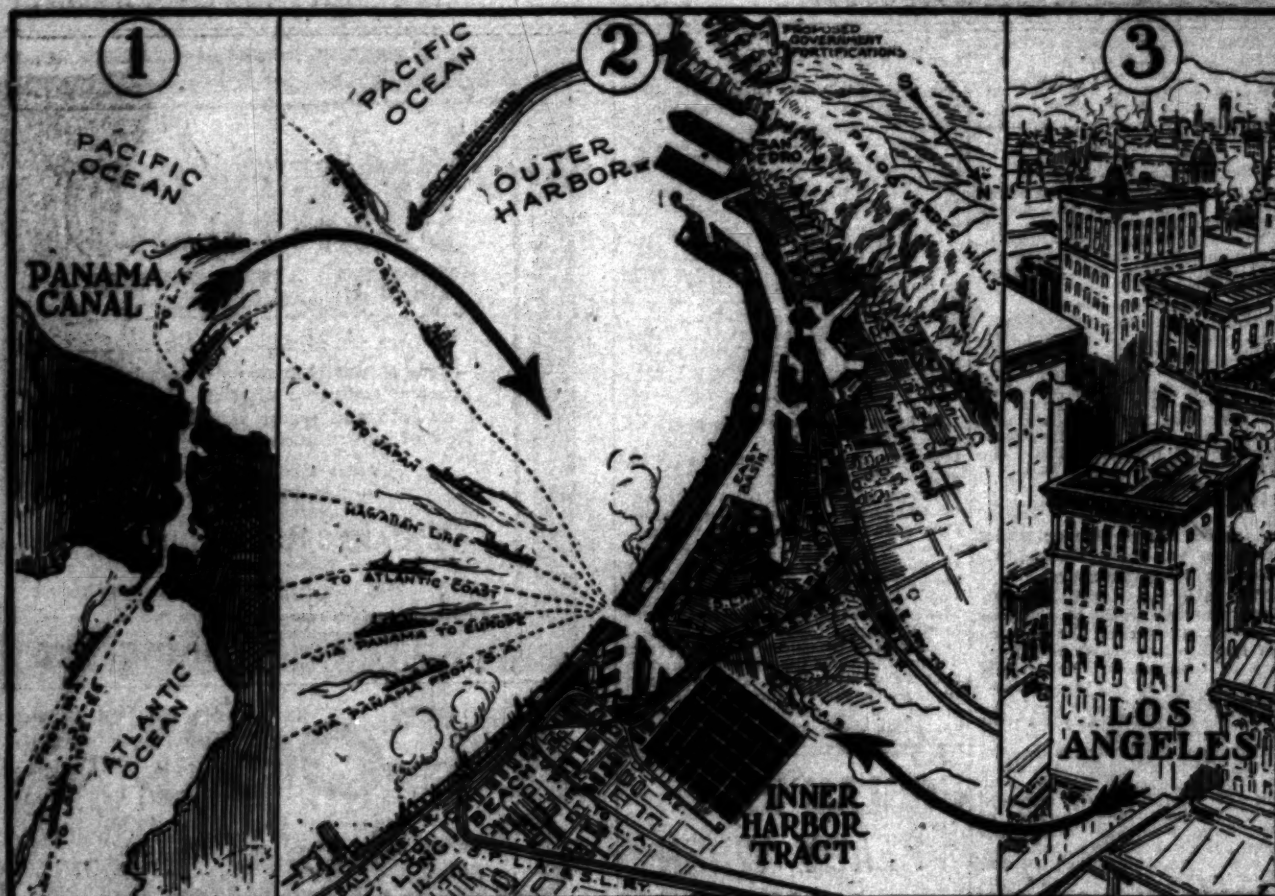

Visit Belle Mead, where the grass is green and the birds sing—stock up on fresh air energy.

Personally conducted free auto trips from our offices twice daily. F. P. Newport & Co., 204-209 Central Bldg., Sixth and Main Streets. Home 60175. Main 4792.

## WEBB'S HAIR TONIC

**Cures Dandruff—stimulates growth of hair—prevents falling. The best hair tonic ever produced. For sale by BOSWELL & NOYES, 300 South Broadway, Corner Third. 50c**

## Buy Inner Harbor Industrial Lots NOW

- these reasons should appeal to you.
1. Opening of Panama Canal will multiply industries for Greater Los Angeles Harbor.
  2. Inner Harbor Tract offers best industrial locations. It is close to deep water, docks and railroads.
  3. This Tract is in the path of Los Angeles' industrial development with its factory output rapidly approaching \$100,000,000.00 annually.

## Round Trip Harbor Excursion—25c—Sat, April 12

—Conducted by the Los Angeles Investment Company—tickets provide car fare both ways—20-mile boat ride through the harbor, passing million dollar Craig Ship Building Yard, great Bascle Bridge and later enjoying a hot lunch on tract.

## Inner Harbor Industrial Lots \$500 to \$1000

Coming industries will demand best harbor locations—YOU can get in ahead by securing one or more of these lots NOW—buy while they last before the Panama Canal opens. Terms only 10% down—\$10 month. 5% discount for all cash.

## Reserve Your Tickets

Reservations for tickets must be made at our offices on day before excursion. Cars leave Pacific Electric Station, 6th and Main, at 10 a.m. sharp.

## Where Else Can You Find Such Ideal Lots Amid Such Inspiring Surroundings?

High Ground, Slightly Situation, on the Way to Glendale and Only Fifteen Minutes From Sixth and Broadway

THIS is intended for the men and women who truly appreciate cultivated surroundings, broad scenic outlook, high-class improvements, and the comforts that make up the ideal home neighborhood.

Atwater Tract is reached in half the time consumed to Hollywood. It is two miles nearer than Glendale. The fast Pacific Electric cars get there in 15 minutes from Sixth and Broadway. They sweep through the residence district, skirting the children's Play Ground, the Lake and Echo Park. They run through that picturesque section chosen by the film companies, and made famous all over America for the beauty of its hill slope and valley.

Atwater Tract stands 149 feet above the level of the Court House. The air is pure. The view is superb for miles and miles. Streets are broad and smoothly surfaced. Walks and curbs are superior. Parkings are 10 feet deep and have ornamental trees planted. There is water, gas, electricity and telephone.

Reasonable restrictions encourage homes of comfort and refinement. We aid in building, we build to your plans, or give choice of homes already built. We provide them from \$2500 to \$7500, as desired, on easy terms. We are developing Atwater Tract for great future values. No other lots like them, in scene, situation, improvements and accessibility, can be found within the limits of the city, at prices so low, and terms so easy to meet.

## City Home Lots, Daily Growing Into Greater Value

**\$650.00 and Upward on Easy Terms**

We Make Trips Every Hour of the Day—Come In and Go.

Or to go direct, take Glendale or Burbank red cars on West Sixth Street, and get off at office, corner Atwater Avenue.

## MIX OIL AND WATER?

Dorsey Oil Company Denies Right of Anshelm Union Water Company to Do So.

SANTA ANA, April 10.—Challenging the right of the Anshelm Union Water Company to dabble in oil, the Dorsey Oil Company today filed an answer in the action brought by the water company to quiet title to the 177-acre tract in the Fullerton oil field.

The water company has already been doing some profitable oil business. It leased a reservoir site to the Anshelm Oil Company, and oil was struck with the result that the water stock jumped from a valuation of \$25 to \$200.

The Dorsey company declares that the action of incorporation of the water company confines its scope of activities to supplying its stockholders with irrigation water, yet the water company has entered into an arrangement to go into a private enterprise, the development of oil.

The company declares that the water company has an easement only and that for irrigation purposes. The Dorsey company has put down a well on adjoining property, and has it producing.

The Dorsey company declares that the action of incorporation of the water company confines its scope of activities to supplying its stockholders with irrigation water, yet the water company has entered into an arrangement to go into a private enterprise, the development of oil.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES

### WOMAN PLEADS FOR LIBERTY.

Jean Thurner, Kleptomaniac, Is Bound Over.

Tearful Supplication Fails to Move Prosecutor.

Vermont Society Holds Banquet at Raymond.

PASADENA, April 11.—Mrs. Jean Thurner, the woman who claims to be a kleptomaniac, who has been operated on in an effort to cure her of the supposed disease, and who was arrested a short time ago in Los Angeles charged with the theft of jewelry from Pasadena stores, was given her preliminary hearing on a charge of grand larceny before Justice of the Peace McDonald yesterday. She was held to answer to the Superior Court and was taken from the Pasadena City Jail, where she has been since her arrest, to the County Jail in Los Angeles. The court heard her bail at \$100, but she was unable to secure it.

Mrs. Thurner, whose philosophical behavior had been the most noticeable thing about the affair, yesterday broke down in court and sobbed while an attorney, who had been appointed to defend her, sought to secure her release on the grounds that she was not responsible for what she had confessed to having done.

Judge McDonald, however, held that while the case is deserving of pity the public must be protected, and that the fact that she had committed thefts after she had undergone an operation proves that she is not cured of the ailment after all and is liable to break it again at any time.

The prisoner's husband, A. S. Thurner, was present in the courtroom. He begged the court to allow him to take his wife home with him.

There were a number of witnesses testifying from whom the jewelry had been taken. The witnesses were all willing to see the woman given her liberty, but Deputy District Attorney Richardson was unwilling to move that the case be dismissed.

**MANY ATTEND SHOW.**

The spring flower show of the Pasadena Horticultural Society at the Hotel Maryland drew big crowds yesterday afternoon and last night. A feature that no other flower show has ever had is a vegetable department wherein are shown the largest specimens of vegetables that have been grown by the school children of the city under the direction of W. E. Kelsch, who last fall was given charge of the agricultural and horticultural department of the school system. The vegetables attracted much attention as the flowers. They are artistically displayed.

Of the flowers tulips and roses predominate, although the show is remarkable for its large variety. It will be continued today and tomorrow.

Pianos are being made by the Pasadena Music and Art Association for an exhibition of pictures to be loaned by Southern California conservatories, which will be an attraction for both Pasadena and Angeles.

The Northeast Pasadena Improvement Association is making efforts to secure a double car track on Lake avenue from Orange Grove avenue to Altadena.

The annual statement of the Pasadena Presbyterian Church, made at the annual meeting last Wednesday night, shows that it costs nearly \$45,000 a year to maintain the church. A petition was sent to Washington urging the national officers to proceed against the Mormon church, and a resolution was adopted in which the President and Congress are urged to take action in the direction of a general arbitration of the settlement of international disputes.

Mrs. Annie Buchanan, who has been a resident of Pasadena for twenty-six years, died last Wednesday at Sierra Madre and the funeral will be held in this city. The services will take place at the chapel of Reynolds & Van Noy at 2:30 o'clock this afternoon. Rev. Matt S. Hughes will officiate. Mrs. Buchanan was formerly president of the Woman's Relief Corps of Pasadena and was a prominent member of the Order of the Eastern Star. She was the widow of J. A. Buchanan.

**Los Angeles Dealer Is Charged With Grand Larceny by a Former Business Associate.**

VENICE, April 10.—Although the first scene in the legal battle between junk kings of Los Angeles was staged in the Federal Court yesterday by the filing of the complaint of Philip Senebgram praying that the junk trust be dissolved, the first chapter began in Venice today, when Philip Senebgram was held to answer to the Superior Court on the charge of grand larceny. He furnished \$1000 bail.

The complaint was signed by S. Bauman, and was drawn up by Deputy District Attorney Keren, who, with Attorney E. C. Hanna, represented the people. The complaint alleged that Senebgram drew a check for \$4500 on the junk trust, which was cashed by the bank. The complaint also alleged that Senebgram owned only about 30 per cent. of the stock, or \$1500, the remainder being owned by Bauman, Alpers, Grant and Harter. The attorneys engaged in acrimonious personal attacks at the close of the hearing. In the meantime, the parties in the case are gathering up the rag, bottles and junk made in this and other cities, clearing, they allege, over 100 per cent. in their alley dealings.

Dominick Divola, an employee of Caesar Menotti, was arrested this morning on complaint of Harry M. Sanborn of San Diego, who stated that the Venice police had Divola, who had been in the city for some time, under arrest. Divola's hearing will be held tomorrow. It is stated by Sanborn that his wife is in Venice with the Italian.

**MONROVIA.** April 10.—A resident of the Lone Star State, who gives his name as Charles Davis, in this morning bewailing the loss of \$15.50, his total capital, which, he alleges, disappeared last night when his roommate, D. West, took leave and money at the same time.

West and Davis arrived in Monrovia the first of the week and were fortunate in securing good employment with the Southern Counties Gas Company. They rented a room at the

### Quick, Painless Way To Remove Hairs

(Beauty Culture)

A chance discovery by a chemist has resulted in a harmless way to remove hairy growths without possible injury to the skin. A paste is made with powdered delatone and water and applied to the hairs not wanted. After two or three minutes this is rubbed off and with it comes every trace of hair. The skin is then washed and is left white, firm and smooth. The delatone treatment is so simple and quick in action that no one is justified in employing the painful and costly electric needle.

Rubbing pyroxin on eyelashes with finger and makes them grow thick and beautiful. Short, straight eyelashes will come in long and have a delightful curl if pyroxin is applied at last roots with thumb and forefinger. Use caution and don't get any pyroxin where hair is not wanted.—[Advertisement.]

Frederick Elser, For the past twenty years the leader of the Soldiers' Home band, passes away.

Lyons rooming-house and took their meals at a near-by restaurant. It had always been Davis's custom to roll up his trousers and put them under his pillow for the better protection of his linen change. He was about to do this last night when he saw West argued him out of it, saying that he ought not to roll his trousers with his clothing. Davis left his trousers on a chair with all his worldly wealth therein, and, being very tired, was soon asleep, leaving his friend deep in a magazine. When he awoke this morning man and money were both missing. "West not only took his companion's coin, but left him to settle his board and rooming bill."

The police have been notified and given a description of the man. It seems likely that West, who has had previous experience with the authorities, as he told Davis the Texas police were after him for horse stealing and exhibited some newspaper clippings which spoke of West as "again in the shadow of the law."

### SENEGAM FURNISHES BOND.

## WILD TIMES AT CAPITOL CITY

Slug Feet Won by Wolves in Terrible Melee.

Eight Fingers Battered All Over the Park.

Galaxy of Homers, Triples and Doubles.

(BY DIRECT WIRE TO THE TIMES.)  
SACRAMENTO, April 10.—(Exclusive Dispatch.) Taking a 7-to-3 lead in the first half of the game today only to have Pop Dillon's Angels go out in front with seven runs in the sixth frame, the Sacramento Wolves fought an uphill battle and regained the lead for a 15-to-11 victory by virtue of sixth and seventh inning home runs by Jimmy Lewis and Roy Moran, each with a man on the plate. It was the second consecutive victory over the Angels for the Wolves, and it's been a long time since a Sacramento ball club won two games in a row. The novelty of the situation was not lost on the Wolves, who were out for revenge for the fact that the same team had won the Wolves one game higher in the fourth berth in the Coast League pennant race.

**SOME LINE-UP.**  
There were fifteen Los Angeles players in the line-up and thirteen Sacramento players during the game. Each team used four pitchers and each of the eight pitchers was hit hard. There were twenty-three runs in the game; three home runs, two triples, eight two-baggers and eighteen singles.

The Wolves drove Pitcher Rogers to the bench in the second inning, and disposed of him in the third. Babe Driscoll was the next Los Angeles pitcher and he fared fairly well until the Wolves found themselves on the short end of the score. Then they fell on him, and when Jack Ryan, pitcher and fielder, hit him in the seventh the Wolves tore him to shreds for the two runs which won the game.

Judge Russell twisted five innings for the Wolves and was in good shape to finish the game. But when his teammates were out in front, 7 to 2, at the end of the fifth, Cap. Wolverton figured the game safe and sent the judge off to take a rest for a later game. At the week and incidentally to give Tootie Smith another try-out in the box. But the Angels fell on Smith and tied the score before two men were out in the sixth. Frank Arnesen relieved Smith and the Angels put over three more runs before the sixth was over.

In the seventh inning Arnesen started badly and John Williams was the fourth Sacramento pitcher called into action. Except for one home eighth-inning run, Williams held the Angels safe, and that one run was more than offset by the four runs which the Wolves scored in the eighth. As a result, the game goes to Williams. As a result, Williams has now pitched 25 1-3 innings since the season opened and he is not rated as having won or lost a game.

## JOE RIVERS MAKES BIG HIT IN EAST.

(BY FEDERAL WIRE) LINE TO THE TIMES.  
NEW YORK BUREAU OF THE TIMES, April 10.—(Special Dispatch.) Joe Rivers does not expect to leave the East for some time yet. Rivers is being offered plenty of bouts to keep him in training for the big battle with Cross on the long stretch in California on July 4. First come, first served, seems to be the Californian's method, and his sportsmanlike willingness to meet all comers is putting him further up the local palm of popularity.

It is no small tribute to the western boy's fighting capacity that the cream of the fight fans are picking him to beat Cross in the fourth, well before the limit set for the engagement.

It is freely doubted that Cross will be able to stay the distance or come over with a punch to do any damage after Joe has been knocking on his trail for twelve or thirteen rounds. Still the fight should be worth seeing.

**ALL THE OLD TERRIBLES.**  
NEW YORK, April 10.—By A. P. Night Wire.] All of the old-time events of former horse-racing days, the Suburban, Metropolitan and the Brooklyn handicaps, the Lawrence reclamation, and other features are to be renewed during the eighteen days racing which will be tried at Belmont Park, beginning on Decoration Day. Most of these events have previously been run at Sheepshead Bay.

## DUCKS SMEAR OAK HOLIDAY.

Laughing Bill James in Cause of Much Woo.

Citizens Celebrate Before the Game, Then Mourn.

Killlay and Olmstead Have Their Troubles.

(BY DIRECT WIRE TO THE TIMES.)  
SAN FRANCISCO BUREAU OF THE TIMES, April 10.—(Exclusive Dispatch.) The Portlands Beavers spoiled today what promised to be Oakland's biggest baseball day. Four hundred fans gathered at a big luncheon at noon to pay court to their baseball champions of last season and 100 automobiles were in the parade that led to the Oaks' beautiful new ball park, which is undoubtedly one of the prettiest baseball plants in the West. There were ceremonies all day until the game commenced.

Then the ceremonies ceased. Manager McCredie trotted out "Laughing Bill" James and what he did not do to the Oaks was not worth doing. He allowed Harry a run, three scattered hits and struck out eight. At the finish the record was 2 to 0. James was the whole show.

**OAKS WEAKEN.**  
Killlay went eight innings for the Oaks and Olmstead finished up the ninth. Both pitched good ball, but their support went back on them. In the second, with two out, Killlay hit Derrick and the latter proceeded to steal second. He still continued tricky on the bases, and when Killlay attempted to catch him off second, Cook let the ball go to the center. When Killlay retired in favor of a pinch hitter, Olmstead came on in the ninth. He got the first two men, but Krueger singled to right and stole second. Olmstead was out. When Cook let McCormick's easy tap through him, Krueger scored easily.

There was little to recommend the game for James was in such good form that the Oaks kept feeding from his hand. Almost 10,000 fans gathered at the new park to watch the contest.

**MINNIES GET A BAD SCARE FOR OPENER.**  
(BY A. P. NIGHT WIRE TO THE TIMES.)  
MINNEAPOLIS, April 10.—Members of the Minneapolis baseball club of the American Association are threatened by smallpox. Ralph Comstock, a pitcher, who trained with the club at Hickman and preceded the others to Minneapolis, was taken today to the pesthouse.

Members of the Chicago National baseball club were disturbed today when told that smallpox had broken out among the Minneapolis players. The latter used the visitors' dressing-rooms in the local clubhouses here when they played an exhibition game Tuesday, but it is said Comstock was not with the Minneapolis club.

First Baseman McCarl, Del Howard's understudy, who made his first appearance here with the Seals yesterday.

**WOLGAST IS REALLY TRAINING THIS TIME.**  
(BY A. P. NIGHT WIRE TO THE TIMES.)  
ST. PAUL, April 10.—Ad Wolgast hasn't shown so much zeal in training since he was preparing for the bout against Battling Nelson that won him the championship, according to reports today from visitors to his training camp.

There was complaint after the fight against Willie Ritchie, when he lost his title and again in his recent twenty-round draw with Harlem Tommy Murphy, that the little Dutchman showed the effects of insufficient training and listless work. Murphy and Wolgast met again April 19.

In their last bout Wolgast learned in the closing rounds that heavy body punches hurt Murphy badly and sixed him up.

Except for this discovery, Murphy would have won. It is believed that in the next fight Wolgast will profit by this knowledge and begin playing for the body from the first.

Murphy's condition never causes any worry. He always has taken good care of himself and always works faithfully. Betting is thus far at even money, with a slight disposition shown in some quarters to favor Wolgast, on the strength of a belief that he will form he will give a better account of himself.

**NO MORE FIGHTS.**  
ST. PAUL, April 10.—(By A. P. Night Wire.) The Senate of the Minnesota Legislature killed today, the bill legalizing ten-round boxing contests in the State.

## Oakland 1913 Models

In the Model "42" Coupe, we offer a passenger closed carriage which has no peer in workmanship or material. When you consider its graceful lines, ease of operation, riding qualities, seating capacity and arrangement, it is, without question of doubt, the best value on the market at any where near the price. We ask you to inspect this car to confirm these statements.

## AUSTRALIAN NET STARS TO PLAY LOCAL CRACKS.

THE Australian tennis team which will represent the Antipodes in the world's championship Davis Cup series, will play an exhibition match on the Maryland courts the last week in this month, if plans now under way are consummated.

D. M. Lindsay called the Australian team before it sailed from Sydney last Saturday, asking if they would play an exhibition game in Pasadena with a representative team from Southern California. Horace Rice, a member of the team, cabled yesterday stating that he and A. D. Jones, the second member of the team, would accept the offer providing the plans made by the tennis officials of the United States covering their activity while in this country, permitted.

The Australian team, with the exception of S. M. Doust, the third member, who is now in England, will arrive in San Francisco April 24 and will come direct to Pasadena if present plans carry. As the team is to go to Newport within a short period to participate in the preliminaries for the Davis Cup, it is expected that they will welcome an opportunity of playing as often as possible after their long ocean voyage of three weeks.

As Tom Bundy, the partner with Maurice McLoughlin in the dentists' championship of the United States, will not try for the American team this year, it is expected that he will be one of the team of men's doubles which meet the Australians in their match here.

McLoughlin will not meet the Australians as he will meet them in the match events at Newport. Bundy with a partner like Sinsbaugh or Duncan or Browne and Wayne, should give the visitors fully as hard a tussle as they will experience when they meet the American team in the match events.

## Second Annual POPPY DAY And Auto Day at VAN NUYS SATURDAY, APRIL

Afternoon and Evening—Barbecue at 6 P.

Special arrangements for parking and care of autos.

Don't fail to be there. Go via Culver City Pass and Sherman Way.

See large advertisement on Page 5, Part 1, for full details.

IT WILL BE A RED-LETTER DAY IN THE CALENDAR OF

# RIVAL FOUND FOR VETERANS.

Another Pima Brave Is Now in the Running.

Many Stars in Second Race Over "Times" Course.

Peter Begay Will Wear the Sherman Colors.

BY AD G. WADDELL.

Another wonderful little Indian runner has been discovered at the Sherman Indian Institute. His name is Peter Begay. He hails from Arizona and is of the Pima tribe.

For the past month or more this Indian boy has been training for the Times Modified Marathon and great things are expected of him in the race the week from tomorrow. He is in the same class with Philip Zezouna, the Hopi Marathoner who won the Times Marathon last year, and Albert Ray, the speedy Pima runner who won the last annual Los Angeles Athletic Club Marathon and the Southern California race last spring.

Begay has not had the experience that Ray and Zezouna have had, but he is a natural runner and possesses all the characteristics of the gifted Indian distance man.

**CLASSY CONTEST.**

The Times Marathon would be a great race if the three best runners were the only entrants, but with such men as L. E. Norman of Pasadena, and William J. Adams of U.S.I., Lorber and Brewster of Pomona, Slick Hanger of Manual Arts High School, Frank Carlin of the Los Angeles Athletic Club, George Fisher, George Hanger, Steve Jones and Richard J. Hall of the Y.M.C.A. in the list, the second annual Times Modified Marathon promises to be the greatest race of its kind ever held on the Pacific Coast.

While Begay is smaller than Ray, he has the same easy and apparently effortless manner, and should develop into one of the country's greatest distance men within the next year.

**TOUTED CHAMPION.**

Albert Ray is already being touted as the next American Olympic Marathon champion, and says himself that he believes he can beat any runner in the country today over the modified track race course.

Zezena also has hopes of representing America's Marathon strength in the next Olympic games at Berlin. The little Hopi Indian runner of exceptional qualities and really wonderful possibilities. He is only 19 years old, and says that the men of his tribe are able to do their best in the Marathon event between the ages of 25 and 35.

Philip made his first public appearance as a distance man in the Times race last season and romped to a second place, losing to Zezena and Ray. He does not seem to have improved much since the odds were 5 to 1 against him.

The Hopi boy won second place in the 100-mile race last year, but he did not do his best, as he thought he had beaten all the runners who had started a strength of him. He does not run with the easy stride of Ray and Begay, but has a little form of his own which resembles the run of a valley quail and cuts up the distance in a surprising way.

**TEWANNI EASY.**

Zezena says he can beat Lewis Tewanni, the Carlisle Indian, who went to Stockholm with the American Olympic team last summer. Tewanni and Zezena are of the same tribe, and the local Indians showed him to the Olympic here in a desert race on the Arizona reservation during the last summer vacation. These men of the tribe who were about 10 years old finished ahead of the glory-covered finishers, and when it is realized that the best runners of the desert tribes are still on the reservations, while near-champions are winning here, the prediction that the next Olympic champion will come from the Southwest and be developed in the context of Southern California is not improbable.

## FIRM IS MAKING STUDY OF TRUCKS.

Superintendent J. L. Crawford of Bishop & Co., is making a careful study of the relative cost of horses and motor trucks in distributing the products of his company. The trucks have thus far had but very little the best of it, as far as expense goes, but have shown themselves capable of doing work that no horse could do, and Crawford hopes that with experience, various expenses will be cut down and greater work gotten out of the cars.

The firm's first venture was with a Graysville truck, which was bought in 1909. According to Superintendent Crawford, it was not satisfactory, and finally it was decided to rebuild it. It has been changed from a two-cylinder to a four-cylinder machine and the transmission altered. The new truck, owned by Bishop & Co., is a Moore. Three one-ton trucks handle the city business and two-ton trucks have recently been purchased to take care of Pasadena and neighboring cities.

The records made by the three one-ton Moores during a typical month follow:

Truck No. 1—831 miles, 184 stops, 161 gallons of gasoline cost \$18.19, transformer quart of lubricating oil cost \$14.46, hard grease costing 25 cents, garage charges \$16, chauffeur's salary \$74.35, 787 miles, 1638 stops, 15.4 cents per mile, 5.6 cents per stop.

Truck No. 2—830 miles, 1785 stops, 97.5 gallons of gasoline cost \$17.55, transformer quart of lubricating oil cost \$14.46, hard grease costing 25 cents, garage charges \$16, chauffeur's salary \$74.35, 787 miles, 1638 stops, 15.4 cents per mile, 5.6 cents per stop.

Truck No. 3—110 gallons of gasoline costing \$19.50, nineteen quarts of oil costing \$25.02, four pounds of hard grease costing 21 cents, garage charges \$16, chauffeur's salary \$74.35, 787 miles, 1638 stops, 15.4 cents per mile, 5.6 cents per stop.

Superintendent Crawford considers that each truck has eliminated four horses and two drivers. He feels that the highly increasing arm of motor trucks will have a big effect in decreasing the expenses of users of auto trucks.

**OFF AFTER SNIP.**

W. H. Wilshire, Sam Levy and R. Middleton started out yesterday from town for a day's shoot at Wilson's near Long Beach. There are said to be plenty of this kind near that town.

Peter Begay.

The speedy little Pima Indian from Sherman Institute, Riverside, who will run in the second annual Times Modified Marathon April 19, and who is considered a dangerous rival for Philip Zezena, the Hopi Marathoner, and Albert Ray, the sensational Pima, who has won every race of his career.

## FISTIC GOSSIP.

With but four days intervening before they enter upon what will be the most important contest of their careers in the squared circle, Bud Anderson, the dandy little scrapper from Medford, Or., and K. O. Brown, the sturdy little Dutchman from the "Big Town," have settled down to the last quarter-planning of their training.

As Anderson is a hungry wolf and claiming that his 16 pounds of overweight will be dropped into the discard in a leisurely manner, which will not weaken him in the slightest, Anderson is drawing into beautiful condition. He is faster and sturdier than when he met Brown in that memorable fight which went to a draw and if the fight was to happen today Anderson would be in the condition of his young life.

On the other hand Brown has become acclimated and says that his showing with Josephus Rivers and Anderson was not up to the standard, owing to the effect of the climate. This says Brown, is now all history and his appearance certainly backs up his words.

**BROWN WORKING HARD.**

Down at Venice the little humorously appearing Dutchman is working hard. There is not one idle moment in his day's routine. The weight will be easy for him and he is devoting all of his attention to his general conditioning. He expects to step into the ring next Tuesday in condition to travel the twentieth round faster than he will travel the first.

Yesterday at Jack Doyle's Vernon camp Anderson went through a very fast but short workout, which Donald, his manager, claims was just sufficient to keep his weight down to the proper notch. He worked the pulleys, punched the bag, skipped rope and went through four fast rounds with Carl Carter and his brother Fred.

**DONALD CONFIDENT.**

So confident is Manager Donald that Anderson will be just right when he enters the ring Tuesday that he ordered Bud to stay away from the road work Thursday and to work easy in the gymnasium. Anderson plans to follow up this program to the night before the contest, when his trainer expects to have the Medford prize weighing 134 pounds and also with the drying-out process and enter the ring just balancing the beam at 133 pounds.

There is a slightly different program down at Venice, where Brown is working himself into his best condition. Brown is a glutton for work and yesterday went through a hard grind and then begged for more when time was called. Brown boxed six rounds, three with Martin Leahy and three with his brother, Adam Brown. He took a run along the beach and punched the bag, which he followed with adopting the ropes. The weight will not bother Brown and he is working wholly for stamina.

**"TWELVE ROUNDS"—KAYO.**

"The fight will not go over twelve rounds," said Brown yesterday as he was being rubbed down. "I expect to cop Anderson before that time. I know now how to get him and I will get him early in the game. I will carry the fight to him for every second of the time and if he is on his feet at the end of the half-way mark I will be Dutchman's Dutchman. You fellows out here," continued Brown, "think that I am a dud on account of my showing with Rivers and Anderson, but I am glad to see you weak at first and I was not myself. Now I feel bulky and there will be crepe worn by that Medford bunch of sports when I am through with their idol."

# W.A.A. ENTERS RACING FIELD WITH MANY PLANS.

BY BERT G. SMITH.

FRANK A. GARBUETT, president of the Western Automobile Association, met with the board of directors yesterday and plans were made to enter the racing field. There is reason to believe that this year will be one of the most important in the history of the automobile industry and the number of races already planned by the W.A.A. will make that organization one of the strongest racing bodies in this country.

Plans for the Bakersfield track race are well under way. Yesterday President Garbutt received a dispatch from W. C. Drury, one of the men in charge of the race. Drury urged affiliation with the "Three A's" and asked for western control of race matters. Here is the telegram to Frank A. Garbutt, president W.A.A.: "Everything here going W.A.A. for affiliation with Three A's, but western control of racing."

Then from C. K. Colby, another

Bakersfield booster, who believes the race will be his, comes the wire which was sent on Wednesday: "Keep up the fight for the W.A.A. We are all with you; \$5,000 people expected here for opening of our track. Make them grant every reasonable request or we will go it alone."

The W.A.A. will have its hands full with the directors of the Automobile Dealers' Association says he finds the entire automobile fraternity in the Bay City a unit in favor of the race on July 4.

Mr. Leola K. Northern yesterday entered her Simplex racer and Omar Toti will drive. This pretty woman intends to send her car into the San Francisco race with a strong bid for first place. The Simplex is fast enough to win.

**Terrific Struggle.**

## MANUAL ARTS HIGH BEAT U.S.C. BY SINGLE POINT.

BY MARSHALL TAYLOR.

AFTER a terrific struggle, in which neither side could claim any advantage at half time, the Manual Arts High eleven beat the University of Southern California team yesterday afternoon by the narrow margin of one goal. The match was for the Nell Kettlewell trophy and the ladies' hockey championship of Southern California, and was played on the campus of Manual Arts High.

The "collegians" were greatly handicapped by the absence of Miss Lois Kellogg, one of the best players in the state. Her substitute, Miss Marie Furber, proved a worthy exponent of the game and tried her best to make up for the loss of her classmate.

As predicted, the goal keeping of Miss Ethel Barnes saved the day for the winners. U.S.C. pushed their opponents time and time again in the first half, and came within an ace of scoring several times. Had any other player kept goal, the "collegians" undoubtedly would have won.

Miss Marie Crosby and Mrs. Morgan have performed wonders in winning their team to such a high state of efficiency. Every player kept her proper position and was on the spot for every play. The St. Louis sphere flying across the field whenever any of the U.S.C. forwards came dangerously near their front ranks.

Miss Cocks, who has coached the

Says Williams:

## LOS ANGELES MEN REAL FACTORS IN BIG LEAGUE.

BY HARRY A. WILLIAMS.

WELL, they are at it again in the East, and for the next six months the leading question from New York to Detroit will be, "What was the score today?"

The opening of the major leagues, always an event of country-wide importance, was greeted with unusual interest in California in general and Los Angeles in particular.

With Los Angeles men at the helm of two American League clubs it was but natural that local fans should feel personally concerned in the big opening of the season.

New York, piloted by Frank Chance, went down to a defeat that was eloquent of the fortunes of baseball, while the other fellow-townsmen, George Battersby, led the St. Louis Browns to victory over the Clevelander.

This gives Los Angeles pride a percentage of 40 for the opening day. Incidentally, you will observe that Sammy Agnew, schooled by Hap Hogan, drew the opening day assignment behind the bat for the Browns. Sam was selected to handle the delivery of "Night Rider" Wellman, and appears to have performed his part well. Wellman and Agnew are both youngsters, and this makes their achievement doubly notable. Late last season, Stovall "discovered" Wellman in the wilds of Kentucky, and purchased him for a mere sonnet.

**New York Club Analyzed.**

Just a glance at the much-maligned New York Americans. Their showing against Washington yesterday was not what the fans expected for their solution of the problem seemed to entitle them to consideration. The American League has generally had a fair club in New York and has been represented there a number of seasons by a really high-class baseball organization. But disastances, accidents or hard luck have intervened to prevent any display of pennant-winning ability.

I fall to see where this season's Shortstop and third base are, but it can hardly be classed as an out-and-out cellar champion. Let's look 'em over.

In the first place, New York has in Frank Chance and Hal Chase two of the greatest fielders that ever lived on an spiked ball. Chance was not in the game yesterday, but he plans to play regularly. Not only are they about the greatest of the fielders, but Chance has been established himself as one of the most successful managers of all time.

## LIMERICK CONTEST CLOSING TONIGHT.

The Times baseball limerick contest closes tonight, and if there are any diamond poets who have as yet failed to show their talent, they had best get busy and spill a few verbal beans some time today and send the same to the Sporting Editor of The Times. We have about one and one-half million limericks at the present reading, as a few more cannot possibly do any harm.

The said limericks will be published from time to time until all of the best have seen the light of day, then will come the big day, when some pair of fans will be made happy for the rest of the baseball season. Selah!!!

**Big Doings.**

## SOUTHERN PREPS HAVE BIG CHANCE.

STANFORD INTERSCHOOL TO BE HELD SATURDAY.

Stanford will be represented by Crack Athletes, who will represent Agnes Comers from All Parts of the State—Many Trophies destined to come South.

[Special Correspondence of The Times.]

STANFORD UNIVERSITY, April 8.—The eighth annual interschool track meet that is to be held on Stanford Oval, Saturday, promises to be a record breaker in many respects. As usual, Southern California will be well represented in the meet. Nearly every year, a large share of the honors are landed by athletes from south of the Tehachas.

Among the several hundred entries are the following from the south, to date:

The 100-yard dash—C. Johnson, Los Angeles High; E. Stone, E. Maurer, C. Brewer, Pomona High.

The 220-yard dash—C. Johnson, Los Angeles High; S. Maurer, W. Baker, Pomona High.

The 440-yard dash—W. Baker, Parker, C. Brewer, Pomona High; R. Adkinson, Santa Ana High.

Half-mile run—C. Beebe, Anaheim High; L. Walker, Pomona High; Z. H. West, Santa Ana High.

The 100-yard hurdle—C. Parker, Pomona High; Z. H. West, Santa Ana High.

Broad jump—Coffee, Pasadena High; L. Nichols, Pomona High.

High jump—L. Nourse, Harvard Military School; N. Clark, L. Nichols, Pomona High; P. B. Anderson, Santa Ana High.

Pole vault—L. Nichols, N. Clark, Pomona High; Z. H. West, Santa Ana High.

Discus throw—R. Elliott, Anaheim High; Bagard, Pasadena High.

As the result of a recent ruling by the board of governors based on a decision by James E. Sullivan, secretary of the A.A.U., preparatory school students who have been members of a college team will not be allowed to compete. This ruling will bar Bergstrom, the pole vaulter of U.S.C., and Becker, the Occidental high jumper.
